

This document contains scans of three brochures describing various packages of scientology books, tapes and services which can be purchased from the church. All of them are dated 2007. At least some of them are part of the Golden Age Of Knowledge campaign, described by David Miscavige in a leaked video of a 2007 scientology conference that took place in Clearwater, Florida.

The Golden Age Of Knowledge is another attempt by scientology to address the trouble that some (many?) scientologists have completing their courses and training. It is a strongly held doctrine of the church (KSW – Keep Scientology Working) that all Hubbard "tech" must be "delivered" (administered) exactly in the form that Hubbard created it, which in effect means that all manuscripts, bulletins, policy letters, and recordings should be preserved in their original form. (Auditors who use the tech must not omit, re-interpret or improvise any parts of it either.) Any deviation from its original "source" form will prevent those who practice it from enjoying its benefits. In other words, if you don't become smarter, feel healthier, or develop super powers, it's not because the tech is faulty: it was just misapplied.

An important part of scientology "study tech" states that if you're having trouble understanding a given piece of subject matter, it's probably because of a "misunderstood word." You should stop immediately, go back and find the misunderstood word, look up its definition, and be sure you understand it fully before moving on. There are several dictionaries and glossaries of terms that scientologists are supposed to use for this purpose in the course of their studies. But apparently a large number of scientologists were still having trouble "moving along the bridge" even though they'd looked up every misunderstood word they could find. In reality, this confusion works to scientology's advantage: the more trouble people have with the "tech," the more special "handling" they need, and the more fees scientology can charge (and the more excuses they have to get you to "disconnect" from "supressive" people who might be holding you back). But there comes a point when even the most brainwashed cultist might become suspicious, so the church had to explain these failures without losing face.

And that's that The Golden Age Of Knowledge is all about. According to David Miscavige, if you were having trouble with the "tech." it wasn't your fault. It was the fault of the proofreaders, editors and various other non-scientologists who'd handled Hubbard's manuscripts over the years. They had made subtle changes – reformatting a paragraph here, omitting a footnote there, re-organizing text or inserting text that didn't belong – and it was because of those changes that some of the material didn't make any sense. But luckily, Miscavige says, the church went back and re-examined all of Hubbard's original writings and "re-mastered" them, releasing new editions with all of those pesky problems corrected (and with bigger glossaries than ever before). So all you have to do is buy these new editions, and all your problems will be solved. (I hear that in the new version of Dianetics, Greedo shoots first.)

The following brochures show how much it costs to buy these new books. They are referred to as The Basics, because these comprise the first part of the scientology study track. Once you've gotten past these and reached the state of clear, then you get to move onto the bonus rounds of Operating Thetan studies. Note that the third brochure is a quadruple-sized fold-out affair, and is presented in sections. The only edit which has been made was to black out my mailing address from the first page.

(For those who are wondering, no, I am not an ex-scientologist. Somehow, my address got added to a scientology mailing list, and I started receiving these things out of the blue. It took three calls to the local org to make them stop sending them to me.)

# FULL CONCEPTUAL UNDERSTANDING IN RECORD TIME!

*Dianetics* through *The Route to Infinity* Course in **LESS** than 3 weeks!  
Your **FULL** Basics line-up in well under checksheet time! Learn it **FAST**, know it **FOREVER!**

**D**id you know that numerous Scientologists, doing their Basics on the Freewinds, have been going from *Dianetics: The Modern Science of Mental Health Book and Lecture Course* through *The Route to Infinity Course* in under 21 days? That's right. Less than 3 weeks and you're already studying the higher levels. As LRH says in *HCO Bulletin of 30 July 1973*, "...one finds the higher levels publicly spoken of most frequently in the earlier books and tapes (between '51 and '55)." And if you want to add additional weeks, you can complete your full Basics line-up faster than anywhere else. The result: Total certainty in the application of Scientology, 100% unadulterated Source—exactly as LRH intended and moving up *The Bridge* with more speed and ease than you ever thought possible.

Here is your rock-solid base, learned concept by concept, giving you full conceptual understanding of the mind, spirit and life. All yours to the very core of your being, forever. And achieved with such speed, you can't

afford not to come. But don't take our word for it, hear it from someone who is actually doing and experiencing it himself.

## SUCCESS

One of my friends invited me to an event. I was not a Scientologist. This event became the biggest turning point in my life after seeing the presentation from Mr. Miscavige about the Basics. It has changed my viewpoint and life forever. One week after this event, I went to the Freewinds to do all the Basics Book and Lecture courses as I had heard I could get through them rapidly there.

"My biggest win is that after being in Scientology for only a week, my son and I are now in the top organization on the planet, on board the Freewinds where I found lots of help and answers to life and every question I have ever had, and it has given us enormous understanding. Up until now I had no knowledge about Scientology and I can now see that this is the only way for our future survival.

"After I read the first two books, I could see what mistakes I have made in my life, the business world and in my communications. By having this understanding,

I can correct these mistakes in my own life. By using this knowledge, everyone in my life will gain and I will be making a better environment. From studying *Dianetics* through to *History of Man* in 20 days, I now fully understand what happened to man and have so much more understanding which equals certainty in my life. This knowledge has changed my whole life.

"I am happy to take these first steps with my son. We are already planning to take our next steps. He is only 16, but after finishing the Basics he will do his Academy training, which will open a new era for the whole family going up *The Bridge*.

"And in addition to my study I have also had time to jog every morning, I have attended conventions, gone on island excursions—all in addition to doing my Basics.

"I would like many people to follow this route because this is the only chance for survival for all of us. Again, I want to say that this has changed our lives. I would like to thank LRH for providing this knowledge to me, and to all Freewinds crew, so we can all study this priceless tech." – T.S.

# FULL CONCEPTUAL UNDERSTANDING

## A ROCK-SOLID BASE

The very core of the tech. The foundation upon which  
all else is built.

Now available in its entirety—for the first time ever...

## CONCEPT BY CONCEPT

You discover answers to the mind, spirit and life.

Ron's relentless track of research, breakthrough by  
breakthrough.

All here, all yours...

## IT ALL COMES TOGETHER

Because this data aligns everything else...

## THIS IS THE FUNDAMENTAL KNOWLEDGE OF SCIENTOLOGY...

And its yours to the very core of your being...

**FOREVER**

**T**he materials of Dianetics and Scientology comprise the largest body of information ever assembled on the mind, spirit and life, rigorously refined and codified by L. Ron Hubbard through five decades of research, investigation and development. The results of that work are contained in hundreds of books and more than 3,000 recorded lectures.

The books and lectures that follow form the foundation upon which The Bridge to Freedom is built. They are presented in the sequence Ron wrote or delivered them. In many instances, Ron gave a series of lectures immediately following the release of a new book to provide further explanation and insight of these milestones. Through monumental restoration efforts, those lectures are now available.

While Ron's books contain the summaries of breakthroughs and conclusions as they appeared in the developmental research track, his lectures provide the running day-to-day record of research and explain the thoughts, conclusions, tests and demonstrations that lay along that route. In that regard, they are the complete record of the entire research track, providing not only the most important breakthroughs in Man's history, but the why and how Ron arrived at them.

Not the least advantage of a chronological study of these books and lectures is the inclusion of words and terms which, when originally used, were defined by LRH with considerable exactitude. Far beyond a mere "definition," entire lectures are devoted to a full description of each new Dianetic or Scientology term — what made the breakthrough possible, its application in auditing as well as its application to life itself. As a result, one leaves behind no misunderstandings, obtains a full conceptual understanding of Dianetics and Scientology and grasps the subjects at a level not otherwise possible.

Through a sequential study, you can see how the subject progressed and recognize the highest levels of development. The books and lectures that follow show where they fit within the developmental line. From there you can determine your next step or any earlier books and lectures you may have missed. You will then be able to fill in missing gaps, not only gaining knowledge of each breakthrough, but greater understanding of what you've already studied.

This is the path to knowing how to know, unlocking the gates to your future eternity. Follow it.

## THE ROAD TO TRUTH

By L. Ron Hubbard

EXCERPTED FROM THE LECTURE, "THE ROAD TO TRUTH"

**N**ow, the person who adventures out on the road to truth adventures with great desperateness. And I wish to pull a long, gray beard at that particular statement, because no statement about truth was ever relatively truer than that one. A person who would adventure on the road to truth is taking a terribly adventurous step — very adventurous. A philosopher who seeks to discover and teach truth is taking his life in his hands. And that wouldn't be very important, that he is taking *his* life in *his* hands. What is far, far, far more important than that is he is taking in his hands the lives of a great many other people. Therein lies his responsibility. I'm not speaking about me. I'm just speaking about philosophers.

## GAINING CERTAINTY WINS FROM THE BASICS

*I now feel I know the data and have no attention on it.*

I really liked how the books are laid out. With important phrases in italics, axioms in bold type, important data being made abundantly clear in the layout itself, and the glossary in the back, it was a smooth sail through the books. After the first two days of study, my progress sped up considerably. I found and cleared up areas where previously I had not totally understood the concepts. I didn't believe it could be done so fast when I started, but I did it. What a win! I now feel I know the data and have no attention on it. Each Book and Lecture course has gone faster and faster and I have now completed 5 courses in 12 days! — B.C.

*The wins for me on the Basics have been life-changing.*

In 22 days on the Freewinds, I have completed the Book and Lecture courses for *Dianetics: The Modern Science of Mental Health*, *Science of Survival*, *Self Analysis*, *Advanced Procedure and Axioms* and *Handbook for Preclears*. And all the while had time to do a convention and to go on excursions on the islands. The wins for me on the Basics have been life-changing. For example, while on the *Science of Survival* course, I found a major crashing misunderstood that I never knew I had and it totally changed my life. Studying these materials in the OT environment of the Freewinds has helped me to really duplicate and apply the data easily and my speed through the Basics has been incredible. — L.L.

*Never before, throughout my whole journey up The Bridge, with all the data I had, have I ever attained the level of certainty and reality that I have obtained with these Basics studied here on the Ship.*

I have been on board the Freewinds for 20 days and in this time I have completed 8 courses so far. My game is to complete all of the Basics Book and Lecture Courses!

One of my plans is to finish Solo I and go to Flag for my OT levels. Since I needed to do my Basics Book and Lecture Courses for Solo I, I decided to come to the Ship and that was the smartest decision I could have made. This has been like a rundown, from the point I started *Dianetics* up until this moment. I never imagined that this would change my life so much.

The study I have done here on the Freewinds has been very fast and my

me. I'm just speaking about philosophers.

Now, what do I mean by "It's a very adventurous thing"? What do I mean by that? It's because that is the only track you have to go the whole way on. There is no short stop on the road to truth. That is the only track that you have to go all the way on. Once you have put your feet upon that road, you have to walk to its end. Otherwise, all manner of difficulties and upsets will beset you.

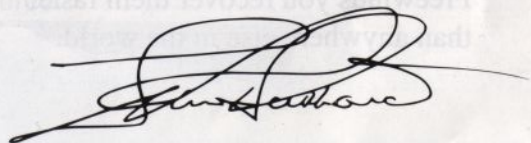

You walk into the chemistry department, you find one construction of an atom. There it is; it'll be sitting up there someplace around the department or the laboratory, and it'll show you the exact relations of molecules, one to another, in any given element. And there it is; it's all in model form; it's put together with wires, and students can go and look at that, and they're all very fine. And that student will be perfectly all right unless he goes over to the physics department. Because in the physics department, they have an entirely different model, and that is the same molecule of exactly the same element.

This is marvelous to behold, because these two departments are, each one, departments of "exact science". And yet they are very often across the hall from each other. The student gets very confused. He goes into the chemistry department and if he doesn't say "The atoms are composed this way, that way and the other way," he gonna flunk, man! And he goes across the hall and here's an entirely different model, has no relationship to the first model, and that is the atom of the same element that he's just been studying. And he's going to get flunked in physics if he doesn't say it's *that* way! I think that's very fascinating. These are exact sciences, are they?

With that much wisdom confronting them, you would have thought that the exact sciences then would have pursued some interest in where all this came from. But their mud theory got in their road; they got all stuck up with it, you know? And there was that mud theory and, oddly enough, it isn't even a new theory. It is found — oh, I think, about three thousand years ago in India, is the origin of our modern, "exact science" mud theory. And I think it originally was described "and it was mud from there on down." They got tired of explaining all this.

Now, there are the boys with their exact sciences and their exact truths, and they're playing with fire. Actually, it may be called "exact science" to them, but when they start telling people that these are truths, that these are absolutes, and then make a model of the atom one way in the chemistry department, and make it the other way in the physics department, I think it's time for somebody to decide they didn't know what they were doing.

The world right now is in most of its trouble because of the "advances" in the field of physics. In the field of physics they know how to blow something up but not how to keep it from blowing up or retard its blowing up at a distance. See, they have all the overt weapons but none of the preventions for those weapons. I consider this very fascinating because before you build an atom bomb, you should have built a sane man. A sane man precedes the structure.

The study I have been here on the Freewinds has been very fast and my level of duplication of the materials is very high. Every course I complete is "the best one" in my opinion. Then I say that about the next one and the next one. I have totally separated from the past, I am more and more in present time and into the future and my future goals of responsibilities and commitment.

What I want to say is that I just want to join Ron's intention and be part of the organized effort to clear Earth.

Never before, throughout my whole journey up The Bridge, with all the data I had, have I ever attained the level of certainty and reality that I have obtained with these Basics studied here on the Ship.

I want to thank the Sea Organization and I want to thank RTC for the correct publication and sequence of chronological study of the courses. I am sure with these releases a new era in Scientology is going to shoot out across the planet and a lot of people are going to have a new reality — I AM!

Thank you Ron, without you this would not have been possible, thank you for being there and continuing to be there for us. I will do my part to help in this crusade. — S.D.

***In 5 days I finished DMSMH, Problems of Work, Fundamentals of Thought, Evolution of a Science and Self Analysis, audited six sessions a day and still had half a day to go snorkeling.***

**B**efore I came to the Freewinds I was on the *Dianetics* Extension Course, about half-way through. It took a month to get that far, working on it evenings here and there. After I got to the Ship, I finished half of the book in 5 hours.

In 5 days I finished DMSMH, *Problems of Work, Fundamentals of Thought, Evolution of a Science and Self Analysis*, audited six sessions a day and still had a half a day to go snorkeling. I never missed my six sessions. Everything is close by and almost no time is spent not on course or in session. Then on study—you just go into the course room, they set you a totally unrealistic target and *you make it*, and you have half the book done. On land it would have been different. The difference between studying on board and ashore is that ashore I was studying in the MEST universe. On board I was studying in the Theta universe. Ashore I was chugging through it. On board I was gliding through it. That's the difference. One is effort, the other is without effort.

The service was spectacular. Graduation was the best one I've ever attended. It was just totally the purpose of The Bridge. Listening to the 6 New OT VIII completions summed up the total of why we do The Bridge.

Overall it was an amazing trip. I think I cut half a year to a year off New OT VII. It's like a day here on the Ship equals a week or two back home. Thank you for everything and thanks to LRH! — K.K.

## L. RON HUBBARD'S BOOKS & LECTURES

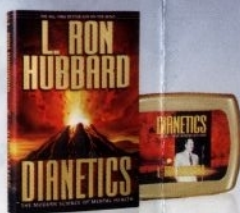

**HOW AND WHY  
AUDITING WORKS**

Ron's first description of Dianetics. Originally circulated in manuscript form, it was soon copied and passed from hand to hand. Ensuing word of mouth created such demand for more information, Ron concluded the only way to answer the inquiries was with a book. That book was *Dianetics: The Modern Science of Mental Health*, now the all-time self-help bestseller. Find out what started it all. For here is the bedrock foundation of Dianetic discoveries: the *Original Axioms*, the *Dynamic Principle of Existence*, the *Anatomy of the Analytical and Reactive Mind*, the *Dynamics*, the *Tone Scale*, the *Auditor's Code* and the first description of a *Clear*. Even more than that, here are the primary laws describing *how* and *why* auditing works. It's only here in *Dianetics: The Original Thesis*.

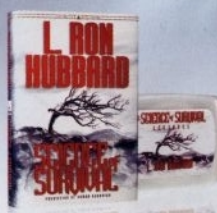

**THE ADVENTURE BEHIND  
THE ADVENTURE**

This is the story of *how* Ron discovered the reactive mind and developed the procedures to get rid of it. Originally written for a national magazine—published to coincide with the release of *Dianetics: The Modern Science of Mental Health*—it started a wildfire movement virtually overnight upon that book's publication. Here then are both the fundamentals of Dianetics as well as the only account of Ron's two-decade journey of discovery and how he applied a scientific methodology to the problems of the human mind. He wrote it so you would know. Hence, this book is a must for every Dianeticist and Scientologist.

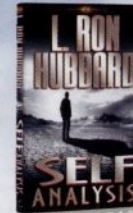

**THE BOLT  
FROM THE BLUE**

Containing discoveries heralded as greater than the wheel or fire, *Dianetics* has remained a bestseller for more than 50 years. And with over 20 million copies in print, generating a movement that spans over 100 nations, it's indisputably the most widely read and influential book ever written about the human mind. Immediately following the first publication of *Dianetics*, Ron began lecturing to thousands upon thousands in packed auditoriums across America. And now you can be there, by listening to these four lectures recorded at the time. Hear him describe the events that sparked his investigation and groundbreaking discoveries, and his personal demonstration of Dianetics auditing.

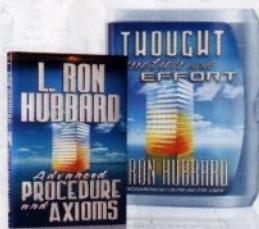

**THETA + MEST = LIFE**  
(Life Force)  
(Matter, Energy, Space & Time)

*Dianetics* revealed the previously unknown mind that enslaves Man—the *Reactive Mind*—and the procedures to get rid of it. And what that, in turn, revealed was something far greater—*Life Force* itself. Here are the discoveries of how *theta* interacts with the physical universe of matter, energy, space and time—*MEST*. And what that provides is the route to ascend to higher states—something never envisioned in history. The book is written around the now legendary *Chart of Human Evaluation*, providing a complete description of the Tone Scale and the components of emotion—the “triangle” of Affinity, Reality and Communication. By knowing just one or two characteristics of a person, you can know the rest—their entire personality, conduct and character. Here, then, is not only the essential handbook for every auditor, but for use in life itself. And that's why *Science of Survival* is the most useful book and lecture series you'll ever own.

**LEARN TO  
KNOW YOURSELF**

Containing the most complete description of consciousness, *Self Analysis* takes you through your past, through your potentials, your life. First, with a series of self-examinations and using a special version of the Hubbard Chart of Human Evaluation, you can plot yourself on the Tone Scale. Then, through these pages, Ron himself audits you with a series of light yet powerful processes, taking you on the greatest adventure of all—the adventure of self-discovery. You'll soon meet the best friend you have—you!

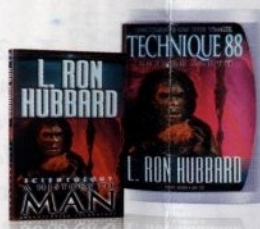

**ACHIEVING  
SELF-DETERMINISM**

With new breakthroughs on the nature and anatomy of engrams comes the discovery of the being's use of a *Service Facsimile*—a mechanism employed to explain away failures in life, but which then locks a person into detrimental patterns of behavior and further failure. Here, then, is *Advanced Procedure* and the means to rehabilitate *Self-determinism*.

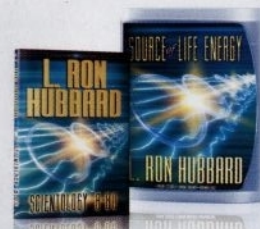

**IDEAL  
STATE OF BEING**

Here is a self-processing book written for use by auditors and prelearns as a companion to *Advanced Procedure and Axioms*. Discover the *Chart of Attitudes*, containing the “buttons” which, when pressed, unlock *any* case. For here, too, is the discovery and description of *Life Continuum*—the means by which a being inherits and then begins living the lives of others. And all of it, as well as the means to return to one's own life, are announced in the watershed lectures originally given to the Second Annual Conference of Dianetic Auditors.

**WHOLE TRACK**

76 trillion years of glare fights, implants, between lives, exploding facsimiles, entities, blanketings, volcanoes and theta traps... REVEALED. With so much compelling information distilled into this book and lecture series, the whole track comes suddenly and sharply into focus. Not for the fainthearted, here is the bold, unvarnished truth of the past and how beings came to be “human.” For here is *infinity to infinity: Technique 88*.

**THE DISCOVERY AND  
INCREASE OF LIFE ENERGY**

The first explanation of the electronics of human thought and the energy phenomena in any being. Discover how even physical universe laws of motion are mirrored in a being, not to mention the electronics of aberration. Here is the link between theta and MEST revealing what energy *is*, and how you *create* it. It was this breakthrough that revealed the subject of a thetan's *flow* and which, in turn, is applied in *every* auditing process today. In the book's title, “8-8” stands for *Infinity-Infinity*, and “0” represents the static, *theta*. Included are the *Wavelengths of Emotion, Aesthetics, Beauty and Ugliness, Inflow and Outflow* and the *Sub-zero Tone Scale*—applicable only to the thetan.

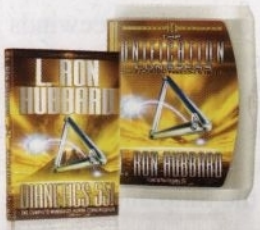

**POTENTIALS OF THETA**

8-8008:  
THE ATTAINMENT OF INFINITY (8)  
BY THE REDUCTION OF THE APPARENT INFINITY (8)  
OF THE MEST UNIVERSE TO ZERO (0)  
AND THE INCREASE OF THE APPARENT ZERO (0)  
OF ONE'S OWN UNIVERSE TO INFINITY (8).

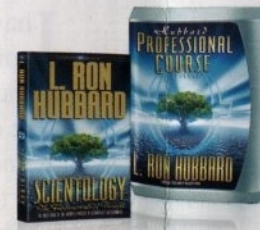

*ScIENTOLOGY 8-8008* is not just another number, but serves to fix into the mind of the individual a route by which he can rehabilitate himself, his ethics and his goals. Ron guides you through that route in the lectures of the legendary *Philadelphia Doctorate Course* and *Factors*. What awaits is the knowledge of universal truth unlocking the riddle of creation itself.

For here is the key to success in all human endeavor and the fundamental component to auditing success. More than that, here are the lectures where Ron unifies the subjects of Dianetics and Scientology into a complete whole, opening the door to all we have today.

Here is the résumé of Scientology—so embracing Ron designated it the *Book One of Scientology*. Then, to provide knowledge for its full application by advanced students of Scientology, he specially recorded twenty-one lectures—each a half-hour in length, and each providing a complete mastery of a new Scientology breakthrough and its use in every part of life. And it's all brought together with the *Code of a Scientologist* and the means of creating a new civilization.

Having codified the entire subject of Scientology, Ron immediately set out to provide the *beginning* manual for its application by anyone. As he described it: life is composed of seven-tenths work, one-tenth familial, one-tenth political and one-tenth relaxation. Here, then, is Scientology applied to that seven-tenths of existence including the answers to *Exhaustion* and the *Secret of Efficiency*. Here, too, is the analysis of life itself—a game composed of exact rules. Know them and you succeed. *Problems of Work* contains technology no one can live without, and that can immediately be applied by both the Scientologist and those new to the subject.

THE WAY TO HAPPINESS

True joy and happiness are valuable. If one does not survive, no joy and no happiness are obtainable. Trying to survive in a chaotic, dishonest and generally immoral society is difficult. Any individual or group seeks to obtain from life what pleasure and freedom from pain that they can. Your own survival can be threatened by the bad actions of others around you. Your own happiness can be turned to tragedy and sorrow by the dishonesty and misconduct of others. I am sure you can think of instances of this actually happening. Such wrongs reduce one's survival and impair one's happiness. You are important to other people. You are listened to. You can influence others. The happiness or unhappiness of others you could name is important to you. Without too much trouble, using this book, you can help them survive and lead happier lives. While no one can guarantee that anyone else can be happy, their chances of survival and happiness can be improved. And with theirs, yours will be. *It is in your power to point the way to a less dangerous and happier life.*
